

THE FANTASY FREE AGENTS

THE BIG GAME PROP SHEET

Answer each question once. Each response has a different value depending on the probability of the event happening. The point value for each response is in parentheses. We'll use gaming sites as the deciding factor on any close calls.

A "1 point" answer has a higher likelihood of occurring but the purpose of the pool is to rack up as many points as possible. The idea is to take calculated risks with some of the questions.
